

# Formula # A707LF

## Cleaner - Emulsifier Degreaser Concentrate

### APPLICATION

Formula # A707LF is a concentrated, fast acting cleaner - emulsifier degreaser containing water soluble solvents and potent synthetic organic wetting and penetrating agents.

### ADVANTAGES

Removes grease, fats, oils, soot, smoke, waxes, stubborn food soils and certain inks and dyes from metal, concrete, plastic, rubber, enameled and other hard surfaces. May also be used as an effective degreaser, oil and dirt remover for air conditioning ducts and grills, machinery, welding equipment, and many other surfaces.

### DOSAGE

Use as a concentrate or dilute with water depending upon application.

For General Cleaning - Dilute 1 part of A707LF to 12 parts warm water.

For Heavily Greased Surfaces - Use concentrate A707LF. May require some scouring.

For Removing Wax and Heavily Soiled Surfaces - Dilute 1 part A707LF to 5 parts of warm water.

In all applications thoroughly rinse with clean potable water after cleaning procedure.

### PRODUCT DATA

Physical State : Clear Liquid  
Odor : Characteristic  
Color : Blue  
Solubility : Miscible in water  
Boiling Point : 100 deg C  
pH : 12.7-13.2

### LIMITATIONS IN HANDLING

May cause irritation or burns to skin and eyes. Wear protective clothing. Keep container closed in a dry cool place.
